NOVOCOLOR® IP

Novocolor IP offers cutting edge technology in waterborne pigment dispersions, specifically engineered to help customers meet the stringent VOC restrictions in place today, and the pending regulations we face in the months and years ahead.

- Engineered for use in architectural and waterborne industrial coatings systems.
- Contains very low VOC, and APE free
- Glycol Free
- Non-Resinous
- Outstanding Universal Compatibility in a wide range of waterborne coating systems.
 - Specifically useful in the latest low VOC systems being formulated today.
 - Able to tint systems that cannot tolerate glycols, where traditional glycol based colorants fall short.
- High Pigment Loadings
- 8546 Durable Red offers an excellent hiding, extremely durable red pigment
- Engineered to provide excellent value
- Additional colors are under development, and will be introduced continuously to fill out the product line.
- Gravimetrically controlled for in plant tinting and shading.
- Available in 5-gallon pails, and 55-gallon drums.

For additional information and samples, please contact your local sales representative, or our customer service department at (800) 654-4242.
