

## RayRez<sup>®</sup> 169

### Styrenated Acrylic Emulsion

**MARKET SEGMENT: SPECIALTY**

**COMMON APPLICATIONS: PRINTING INKS**

RayRez<sup>®</sup> 169 is a soft film-forming styrenated acrylic emulsion that is ideal for use as a flexographic and rotogravure printing ink vehicle. It is especially suited for chamber doctor blade systems. RayRez<sup>®</sup> 169 can also be used for overprinting varnish.

#### PERFORMANCE BENEFITS

- High gloss
- Adhesion
- Resolubility
- Good ink transfer for plastic and foil applications
